Bruce, Dharma, Emma, and Daphne Dad and His Girls

DHARMA, A 2-YEAR-OLD GREYHOUND; Emma, a 7-year-old Smooth Fox Terrier; and Daphne, a 9-month-old Afghan, are the delight of Bruce Miller's life. Daphne is the newest family member and she is the explorer—looking over, around and under every piece of furniture in the house. "I'm not sure what she's looking for, but I sure hope she finds it," notes her dad, Bruce.

True to her breed, Emma can jump about three feet straight into the air, and does, frequently. "If she's really excited, she does it over and over and if you blink while you're watching her, it looks like she's levitating in mid-air," Bruce tells us.

As owner of Beds-N-Biscuits, a B&B for you and your best friend, Bruce is a true pooch aficionado. "I've worked with dogs for 30 years. I've raised them, groomed them, and shown them professionally. Obviously, I love them and, frankly, I cannot imagine my life without them. They quite literally complete me."

Home life is entertaining with these delightful gals: Emma sleeps with dad each night and Dharma and Daphne sleep in their own beds located in the living room. As for toys, they're lucky girls since they live above their dad's doggie locale.

"We stock a wide variety of toys and other accessories for dogs and cats," Bruce says. "I take them 'shopping' at least once a month so they can choose a new toy!"

Cosmo, Olive, Penny Province and Jon Emanuel Happy Home

COSMO IS A 2-YEAR-OLD BRINDLE FRENCH BULLDOG, adopted from Star Creek Frenchies, Olive is 3-year-old pied French Bulldog, rescued through the French Bulldog Rescue Network—and these pooches have been welcomed into a home where the four-legged one's are in charge!

Cosmo loves to wrestle with his papa (Jon Emanuel) and snuggle with mama (Penny Province). They like to chase their dad all around the house until he's out of breath—only about 20 seconds. And the two still have time to wear one another out.

"Olive's favorite toy is Cosmo's leash—while he's wearing it, she likes to walk him," says Province.

Olive "flips out" when asked to go on a walk, she loves meeting new people.

When not playing with family or meeting new people, the pups enjoy going to Mouthfuls Pet Boutique for attention and treats. They also relish their time spent with dog walkers, Paul and Jahna of Denver Pet

Sitters. Come evening, they are snoozing away in bed with mom and dad: "they take up more room than you'd think," notes Province.

Mom and dad know that the kids might be a bit spoiled, but Province wouldn't change it one bit: "What did we do before Cosmo and Olive came into our lives? They make us laugh every day. We all make each other so happy! We're a family."
